### **1896.320. Benefits and Cash Payment Calculations**

By February 1 of each year the Department of Personnel Administration shall publish a Schedule of Employee Benefit Rates on line at the web site [www.dpa.ca.gov/benefits/general/contractors.shtm](http://www.dpa.ca.gov/benefits/general/contractors.shtm). State agencies shall use this Schedule to determine the required Employee Benefits and/or Cash Payments in Qualifying Contracts during the calendar year in which they are published. Each agency may select for any Qualifying Contract either the Detailed Rates or the Blended Rate appearing on the most recent Schedule. The Schedule shall contain Detailed Rates and Blended Rates, as specified in subsections (a) and (b) below:

#### **(a) Detailed Rates**

Detailed monthly rates consist of the State of California costs for employee benefits per employee per month for employees performing the services specified in 1896.300(a)(3), and a calculation of 85 percent of these costs per employee per hour. These costs will be provided for three coverage categories: a single employee with no covered dependents, an employee with one covered dependent, and an employee with two or more covered dependents.

Detailed hourly rates shall be calculated by determining the costs per hour for each of the three coverage categories defined in (a), using the following steps:

- (1) Add together the monthly state costs for health benefits, dental benefits and vision benefits for state employees in each of the categories listed above who perform services listed in 1896.300(a)(3),
- (2) Divide the monthly state costs per employee obtained from (a)(1) above by 173.333.

(b) **Blended Rates**

Blended monthly rates consist of the average of State of California employee benefit costs per employee per hour for all employees performing the services specified in 1896.300(a)(3), and a calculation of 85 percent of this cost per employee per hour.

Blended hourly rates, based on the average cost per hour for all employees in all categories, shall be calculated by the following steps:

- (1) Add together the monthly state costs for health benefits, dental benefits and vision benefits for all state employees who perform services listed in 1896.300(a)(3).
- (2) Divide the monthly costs per employee obtained from (b)(1) above by 173.333.

These total costs are based on the hourly rate provided in the contracting agency's solicitation and derived from the Department of Personnel Administration Rate Schedule in effect at the time the bids are due. For purposes of bidding only, the contracting agency may instruct the bidder to assume that the rates in effect at the time bids are due will be effective through the life of the contract, notwithstanding that the rates may change.
